

**CONSENT FORM REGARDING LANGUAGE ASSESSMENT**

Child's name: \_\_\_\_\_ Date of birth: \_\_\_\_\_

One of preschools major responsibilities, is to offer a supportive and rich language environment for children. To fulfill this government imposed mandate, the preschool staff must have solid knowledge about every child's language development abilities. For some children there will be a need to use systematic assessment tools. Assessment of this kind is regulated by the Personal Data Act, paragraph 11 letter a, cf. Section 8 and 9. For this reason we are obligated to ask for a written consent.

The parents/guardians must be informed, and must agree, to make the consent valid. The information on the consent form has to be explicit and voluntarily signed.

As a parent, you have right of access, at any time, any information or data registered about your child.

The consent form and the assessment results will be responsibly stored in the child's file by the preschool. The documents shall be accessible only to the staff working directly with the child. The assessment results can only be transferred to other institutions by the written consent of the parents.

I/we give my/our consent so that the preschool can handle the given private information according to Act of 14 April 2000 No. 31 relating to the processing of personal data (Personal Data Act), cf. Section 8, paragraph 1 and Section 9, letter a, in regard to systematic language assessment of my/our child.

Yes  No 

I am/we are aware of that this consent can be taken back at any time. If not withdrawn, it is valid until the child no longer attends preschool.
